**INTERNATIONAL SPACE RESEARCH PARK SCOPING MEETING—DECEMBER 3:** The Environmental Program Office would like to invite the KSC employees to an International Space Research Scoping Meeting on December 3, at 11:00 a.m. in the KSC Training Auditorium. NASA is proposing entering into an agreement with the State of Florida, through the Florida Space Authority, to develop an International Space Research Park (ISRP) on the Kennedy Space Center. The goal of the Park is to provide an opportunity for appropriate commercial, research and educational interests to develop new, state-of-the-art facilities to promote the expanded use of space. An Environmental Impact Statement (EIS) addressing the impacts of the proposed development on two alternative sites on the Kennedy Space Center is being prepared and will be discussed. A Notice of Intent (NOI) was published on October 8, 2002. You are cordially invited to attend this meeting, bringing all your concerns, issues, and questions. Come checkout what KSC is planning on proposing. A website has been established for the ISRP, <<http://researchpark.ksc.nasa.gov>> for your information and use. Click on the Environmental link to view our page and also make comments on line. If you have any questions, please feel free to contact Mario Busacca at 867-8456 or Barbara Naylor at 867-8452. (TA-C3)

**NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS: When You Crave A Good Feeling. Some moods trigger food cravings—and vice versa. The challenge is to keep both in check. Recommendations for Managing Moods**

- Maintain a stable blood sugar, no big swings. This means frequent small meals and snacks, every four hours or so.
- Be sure to drink a lot of water and juice.
- Exercise 20 minutes a day for mood — and an hour for fat burning.
- Do not follow an extremely low-fat diet; quick weight loss is also bad for mood. Fat is needed for anti-depression. Stick with polyunsaturated and monounsaturated fats and fatty fish or flaxseeds, which are full of healthy omega-3 fats.
- Take in tryptophan, an amino acid that makes blood sugar accessible to the neurotransmitters. This means milk or turkey. Eat a carb alongside your tryptophan source for better absorption.
- Have breakfast.
- Spend time in the produce department when you shop (try to eat a lot of bright colors, which means fruits and veggies).
- Pass on food items that come wrapped in crackly cellophane.
- Limit coffee
- Don't eliminate any one food group, such as carbs.
- Make your carbs "good carbs" such as whole grain bread, beans, whole grain crackers, soy, apples, pears, peaches, and other fruits rather than unhealthy carbs such as commercial granola bars, animal crackers, graham crackers, potato chips, and, of course, cakes and pies.
- Make comfort foods more nutritional. Buy low-fat ice cream or frozen yogurt. Make your hot chocolate with skim milk. And forget the chips, in favor of popcorn or pretzels.
