NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS: Caffeine has many metabolic effects. For example,

- It stimulates the central nervous system.
 - It releases free fatty acids from adipose (fatty) tissue.
 - It affects the kidneys, increasing urination, which can lead to dehydration.
- Caffeine is in coffee, tea, soft drinks, chocolate and some nuts. Many studies have been done to see if there's a direct link between caffeine, coffee drinking and coronary heart disease. The results are conflicting. This may be due to the way the studies were done and confounding dietary factors. However, moderate coffee drinking (1-2 cups per day) doesn't seem to be harmful. Caffeine-habituated individuals can experience "caffeine withdrawal" 12 to 24 hours after the last dose of caffeine. It resolves within 24-48 hours. The most prominent symptom is headache. They can also feel anxiety, fatigue, drowsiness and depression. Source: <http://www.americanheart.org/presenter.jhtml?identifier=4445>. <mailto:orrindl@ksccems.ksc.nasa.gov>. (TA-C2)

WHAT'S NEW AT THE FITNESS CENTER: The new group exercise schedule is out, with a few changes and additions. **Beginner aerobics** has been added on Thursday evenings at 5 p.m. **Beginner Yoga** is scheduled on Wednesday evenings at 5 p.m. Now is the time to try something new, so come check out these classes! KSC FORMS—SHANA INFORMED FILLER: The deployment of Shana Informed Filler is a NASA initiative to replace the current JetForm/FormFlow Filler application for use with KSC Forms. Most electronic forms have been converted. The remaining forms will be available as JetForm forms until the conversions are complete.

- ODIN PC desktops users require no action on their part. The electronic forms software has been installed automatically. Visit the KSC Forms web site and *open* any Shana Informed e-Form. The form will open in Informed Filler.
- ODIN Macintosh users requiring the electronic forms software must call the ODIN Help Desk and schedule a technician to manually install the software on their machine.
- J-BOSC supported PC desktops can install the software from the JBOSC Menu, Presentation, Install Shana Informed [OR from your Y: drive select Shortcuts, Presentation, Install Shana Informed]
 - Run the Shortcut selecting Next on all of the default selections (Welcome Next, Typical Next, Informed Next, Finish). This same Shortcut can be used to Uninstall Shana Informed software.
 - J-BOSC Macintosh users needing the electronic forms software must also call the Care Center and schedule a technician to install the software on their machine.
- USA and Boeing supported desktops will be supplied with the Informed Filler software by their respective organizations. Contact your Help Desk.
- Currently the 45th Space Wing (AF) will continue to use JetForm as their official electronic forms software package, so if you require access to the AF forms you will need both form filler packages.

Users may access the forms in either of two ways:

(1) Visit the KSC Forms web site and *open* any Shana Informed e-Form. The form will open in Informed Filler. <http://kscforms.ksc.nasa.gov/index.html>

(2) On your local machine: Click on Start -> Programs -> Informed -> Informed Filler. For a New Data Document (a form you have not previously saved data into) select Services and KEF_DC. Documentation on the product is available on the web page or through the Informed "Help" tab.

Please contact your Help Desk if there are questions regarding installation of Informed software.
