MAY HEALTH EDUCATION & WELLNESS PROGRAM—HIGH BLOOD PRESSURE MONTH: High blood pressure is often called "the silent killer" because hypertensives have few, or often no symptoms. Additionally, there is an automated blood pressure machine in the MFF lobby (outside the cafeteria) available 24/7. For National High Blood Pressure Month, May 2003, on-site blood pressure checks will be conducted as follows:

CANCER SUPPORT GROUP: SGS/CHS offers a Cancer Support Group for KSC/CCAFS personnel who wish to participate. The group convenes every Thursday at 11 a.m. for approximately 45 minutes in the Occupational Health Facility, Building M6-495 Library. The group is intended for those undergoing treatment, those in remission, survivors and caregivers. Bring your lunch and join in for this informative support group. Please email Nancy Zuhlke at nancy.zuhlke-1@kmail.ksc.nasa.gov or call her at 867-2025 for more information. (TA-C2)

NUTRITION TIP FROM THE KSC FITNESS CENTER: Judging nutrition claims. Consumers are taking greater responsibility for their health, and they're hungry for nutrition information. But beware. Not all information is accurate. New diets and gimmicks are almost a daily occurrence, making it a challenge to separate fact from promotion. Judging accuracy is easy when you watch for the "red flags of junk science." Think twice if:

- A product promises a quick fix
- There are dire warnings on the package
- A product lists "good" and "bad" foods
- Recommendations are based on a single study
- It sounds too good to be true

Healthy weight is about lifestyle, not quick fixes and short-term answers. For long-term results, follow the [Food Guide Pyramid](#) and get regular physical activity. Source: <http://www.eatright.org/erm/erm022102.html>. <mailto:orrindl@kscems.ksc.nasa.gov>. (TA-C2)
