MISUSE OF THE NASA INSIGNIA: Use of the computer templates, containing the NASA Insignia, for the production of NASA letterhead in electronic form is not authorized and should be removed from all computer systems. The Associate Administrator for Public Affairs has requested all NASA centers use only the printed NASA letterhead stationery. If not approved for specific applications, electronic images of the NASA Insignia ("meatball") should be removed from computer systems. (TA-E1)

INSPECTOR GENERAL: The Office of Criminal Investigations (OCI) is the investigative arm of the NASA Inspector General (IG). The OCI is an independent entity and reports directly to Robert Cobb, the NASA IG, in Washington D.C. The primary mission of this component is to conduct criminal and civil investigations of reported or suspected fraudulent acts by employees, contractors, and others relating to the administration of NASA contracts and programs. Although emphasis is placed on major procurement fraud, (particularly allegations of defective/substandard parts, mischarging, kickbacks, bid rigging, and research fraud), investigations are also conducted of theft, conflict of interest, environmental and hazardous waste violations, health care fraud, and computer related crimes. OCI also provides fraud briefings for Government and contractor employees that are designed to highlight potential risks concerning fraud and related matters. Suspected violations can be reported by calling 867-4714 locally, the toll free Hotline at 1-800-424-9183, or by writing NASA Inspector General, P. O. Box 23089, L'Enfant Plaza Station, Washington, D.C. 20024. The OIG Cyber-Hotline can be accessed at www.hq.nasa.gov/office/oig/hq. (OIG)

NUTRITION TIP FROM THE KSC FITNESS CENTER: EXACTLY WHAT IS A SERVING?

Dietary recommendations are frequently given "servings" - three to five servings a day of fruits and vegetables, two to three servings a day of meat and so on. Do you know what is meant by a "serving?" Knowing the size of a serving can help you determine your portions - the amount of a particular food you eat at a given time. Here are some examples of serving sizes, for use in gauging your portions:
· Three ounces of cooked meat, fish or poultry is the size of a deck of cards
· Two tablespoons of peanut butter is the size of a golf ball
· A medium piece of fruit looks like a baseball
· A medium bagel is the size of a hockey puck
· One ounce of cheese is the size of four dice
· A small baked potato is the size of a computer mouse
· The serving size for raw vegetables, yogurt and fruit is one cup - which will fit into an average woman's hand.
