INSPECTOR GENERAL: The Office of Criminal Investigations (OCI) is the investigative arm of the NASA Inspector General (IG). The OCI is an independent entity and reports directly to Robert Cobb, the NASA IG, in Washington D.C. The primary mission of this component is to conduct criminal and civil investigations of reported or suspected fraudulent acts by employees, contractors, and others relating to the administration of NASA contracts and programs. Although emphasis is placed on major procurement fraud, (particularly allegations of defective/substandard parts, mischarging, kickbacks, bid rigging, and research fraud), investigations are also conducted of theft, conflict of interest, environmental and hazardous waste violations, health care fraud, and computer related crimes. OCI also provides fraud briefings for Government and contractor employees that are designed to highlight potential risks concerning fraud and related matters. Suspected violations can be reported by calling 867-4714 locally, the toll free Hotline at 1-800-424-9183, or by writing NASA Inspector General, P. O. Box 23089, L'Enfant Plaza Station, Washington, D.C. 20024. The OIG Cyber-Hotline can be accessed at www.hq.nasa.gov/office/oig/hq. (OIG)

HEART ATTACKS: The Occupational Health Clinic wants to remind employees of the signs of a Heart Attack. All too often employees will have these symptoms at home and drive in to work to have them checked out at the OHF. Please call 911 and get checked right away, do not drive to the Space Center with these symptoms. Valuable time may be lost if you are having a heart attack. "Time is Heart" Some heart attacks are sudden and intense – the "movie heart attack," where no one doubts what's happening. But **most heart attacks start slowly, with mild pain or discomfort.** Often people affected aren't sure what's wrong and wait too long before getting help. Here are signs that can mean a heart attack is happening:

- **Chest discomfort.** Most heart attacks involve discomfort in the center of the chest that lasts more than a few minutes, or that goes away and comes back. It can feel like uncomfortable pressure, squeezing, fullness or pain.
- **Discomfort in other areas of the upper body.** Symptoms can include pain or discomfort in one or both arms, the back, neck, jaw or stomach.
- **Shortness of breath.** This feeling often comes along with chest discomfort. But it can occur before the chest discomfort.
- **Other signs:** These may include breaking out in a cold sweat, nausea or lightheadedness. If you or someone you're with has chest discomfort, especially with one or more of the other signs, don't wait longer than a few minutes (no more than 5) before calling for help. Call 9-1-1... Get to a hospital right away.

For questions or more information about cardiac events or heart disease prevention, please contact Kris Calderon, PhD, CHES at (321) 867-3414 or Kristine.Calderon@jbosc.ksc.nasa.gov (TA-E2)

KSC/CCAFS HEALTH EDUCATION & WELLNESS PROGRAM AUGUST 2004:

The month of August is dedicated to stress management. Many of us often deal with events, issues, and persons at work, at home and everywhere in between that leave us feeling stressed. Moreover, stress has been implicated in at least 80% of the illnesses that plague our society. Thus, it is important to learn how to effectively handle stressful events and change our perception about potential stressors.

This month’s information packet contains information, techniques and tips for stress management including addressing stress at work, at home and on the road. The packet will be available at the following link: **<http://sgs.ksc.nasa.gov/sgs/sites/other/chs/omehs/ocmed/home/index.cfm?page=hew>**

Hardcopies of the packet will also be available at all medical and fitness facilities. If you or your department/organization would like to be added to the monthly packet hardcopy distribution list, please call Kris Calderon at 867-3414. (TA-C2)

STRESS MANAGEMENT EDUCATION TABLE: The monthly health education table will be set up at the MFF Cafeteria (launch area) on August 26th from 11 AM to 1 PM where HEWP staff will distribute various materials related to stress management and answer questions. (TA-C2)

****New** STRESS MANAGEMENT WORKSHOP:** Based on expressed interest, any employee group can request delivery (at any time of the year, during the workday) of a newly developed, interactive workshop designed to teach employees how to handle stress at their workplace and in their lives. The workshop can be condensed to 30 minutes or extended to more than an hour for optimizing coping and relaxation skills. Example of topics and skills covered in this workshop can include:

- Identifying stress triggers
- Learning about the body’s response to stress
- Learning “Portable” relaxation techniques
- Stress perception

Kris Calderon, PhD, CHES, BCIAC, KSC/CCAFS Health Education Administrator will be offering this workshop. Kris is certified in biofeedback and has used relaxation training for stress management in her teaching, service, and research. If interested, please contact her at 867-3414 or e-mail at **Kristine.Calderon@jbosc.ksc.nasa.gov** for more information. The workshop can be delivered in any worksite setting. (TA-C2)
