TOP 10 HEALTHIEST FOODS FOR KIDS BY LEANNE ELY:

1. Optimal Oatmeal: A fabulous breakfast food, full of B vitamins, iron, zinc and calcium. Old-fashioned oatmeal offers quick energy for busy kids with its carb load and fiber count.
2. Egg 'em On: Eggs are a great source of protein and a host of other nutrients, including the B vitamins, vitamin E and zinc (to name a few). The American Heart Association's Guidelines have changed and an egg a day (for adults) is okay now. For kids? Well, they didn't say so use your own good judgment.
3. Nuttin' Better: Nut butters are great fast foods for kids. Kids need the fat (it's a good fat if it doesn't have hydrogenated oils mixed in it) and they need the protein. And, while peanuts can be problematic and even life threatening to allergic kids, other nut butters may be okay (but definitely check with your doctor first). Almond butter is a personal favorite.
4. Culture Club: Kick your child's milk consumption up a notch and include yogurt on the menu. A great source of calcium, yogurt is easier to digest than regular milk, and the cultures (check the label to make sure they're in there!) are very beneficial to good colon health... especially if your child has been on antibiotics. Watch it on the sugar content though. A better idea is to buy plain yogurt and sweeten it yourself with fresh fruit.
5. Mmmm, Mmmm Melons! My personal choice would be cantaloupe in the melon department. Vitamin C, beta-carotene, bits and pieces of B vitamins and trace minerals and calcium fill every juicy bite. Melons are not to be missed when they're plentiful and in season.
6. Tree Cheers! Kids like to call broccoli "trees," and sometimes you can get picky kids to eat "trees" rather than broccoli. Broccoli is one of the best vegetables for anyone, especially growing kids due to its calcium content and a whole host of other nutrients, such as potassium, beta-carotene and B vitamins.
7. Terrific Tubers: Sweet potatoes contain 30mg beta-carotene per cup. It would take 23 cups of broccoli to get that same amount! And, with 3 grams of fiber per serving, sweet potatoes deserve a place at the table.
8. Protein Power: One size does not fit all when it comes to protein. The fact is that growing kids need protein to keep growing. How you're going to give it to them can vary widely, according to your preferences. Good choices include legumes, beans (combined with a grain to make a complete protein), soy products like tofu, or meat, fish or poultry.
9. The Whole Truth: The [best nutrition](#) is found in the whole grain. Brown rice and whole wheat bread are a quantum leap over their white counterparts and offer necessary fiber, minerals and vitamins. Don't shortchange your kids with the white stuff.
10. OJ is OK: Kids drink too much juice. However, that doesn't mean they should never drink juice. Just don't give it to them in place of water. Orange juice is full of vitamin C, vitamin E, potassium, folate and zinc. You can buy calcium-fortified orange juice, too – it's great stuff in moderation.

KSC/CCAFS HEALTH EDUCATION & WELLNESS PROGRAM (HEWP) - OCTOBER 2004:

Diabetes

Type 2 Diabetes is the most common form of diabetes accounting for 90% of the total 18 million diabetics in the United States. With Type 2 diabetes, the body does not use blood sugar effectively. Shockingly, a third of Type 2 diabetics are unaware they have the disease. Moreover, there are 41 million people in the United States who have "pre-diabetes." "Pre-diabetes" is a common stage before becoming diabetic. This is when blood glucose levels are higher than normal but not quite as high as a diabetic's blood glucose levels.

Both pre-diabetes and diabetes are frequently associated with weight gain and contributing health behaviors in adolescence and adulthood as well as genetic factors. This month's health information packet on diabetes addresses the risk factors, testing and prevention/control measures for pre-diabetes and diabetes. The packet will be posted on the HEWP website: : <http://sgs.ksc.nasa.gov/sgs/sites/other/chs/omehs/occmcd/home/index.cfm?page=hew>

KSC/CCAFS HEALTH EDUCATION & WELLNESS PROGRAM (HEWP) - OCTOBER 2004: (Continued)

Hardcopies of the packet will also be available at all medical and fitness facilities. If you or your department/organization would like to be added to the monthly packet hardcopy distribution list, please call Kris Calderon at 867-3414.

****DIABETES INFORMATION TABLE****

The monthly health education table will be set up at the Logistics cafeteria on October 21st from 11:00 am to 1:00 pm where HEWP staff will distribute diabetes information (including information from the Central Florida American Diabetes Association) and answer questions.

**** REMAINING CARDIOVASCULAR DISEASE (CVD) SCREENING SCHEDULE****: Due to lack of clinical space remaining in the former Cape Area Clinic (CAC), CVD screenings will no longer be offered at the CCAFS. To accommodate this change, screenings will be offered for a 2-hour time period on those months previously scheduled for the CAC. The new schedule is as follows:

Tuesday	October 26	11:00 am-1:00 pm	OHF

COLORECTAL CANCER SCREENING: Small amounts of blood in your stool, which can be detected with hemocult slides, can be an indication of colorectal cancer. Hemocult slides and instructions are available at all medical facilities during hours of operation. (TA-C2)

WORKSITE LECTURES: Work-site lectures on any health subject and requests for health information or counseling are available upon request to Kris Calderon, phone: 867-3414, e-mail: Kristine.Calderon@jbosc.ksc.nasa.gov (TA-C2)

STRESS MANAGEMENT WORKSHOP: Any employee group can request delivery (at any time of the year, during the workday) of a newly developed, interactive workshop designed to teach employees how to handle stress at their workplace and in their lives. The workshop can be condensed to 30 minutes or extended to more than an hour for optimizing coping and relaxation skills. Example of topics and skills covered in this workshop can include:

- Identifying stress triggers
- Learning about the body's response to stress
- Learning "Portable" relaxation techniques
- Stress perception

Kris Calderon, PhD, CHES, BCIAC, KSC/CCAFS Health Education Administrator will be offering this workshop. Kris is certified in biofeedback and has used relaxation training for stress management in her teaching, service, and research. If interested, please contact her at 867-3414 or e-mail at Kristine.Calderon@jbosc.ksc.nasa.gov for more information. The workshop can be delivered in any worksite setting. (TA-C2)

MAIL SERVICES: Requests for mail services should be submitted through your organizational admin office or contractor mail coordinator. NASA Form 28-170, "Request for Mail Services," should be utilized for additions, deletions, or changes to existing mail codes. Adjustments to the total number of employees serviced and standard distributions required will contribute to paper conservation.

(TA-E1)

KSC LOCATOR UPDATES: Mail codes, locations, and phone numbers have changed significantly due to reorganizations. Please review the monthly NASA/KSC Locator computer printout of personnel assigned to your area and update the information as required. KSC Form 13-58, "Employee Locator Information," has been revised. Please discard revisions prior to July 2001. KSC Form 13-58 is required for all new employees to secure status in the NASA/KSC Locator and the X.500 Personnel Directory. (TA-E1)

BUSINESS REPLY LABELS: KSC Form 7-597, "Business Reply Label," is a restricted-use form available to support official mailing requirements of administrative materials back to KSC by employees while on travel status. Please note this form can only be used for mailing materials back to a KSC mail code as printed in the appropriate space provided. Prudent use of this mailing label is encouraged to avoid unnecessary postage expenses. (TA-E1)

CAPPS SHIPMENT CUT-OFF TIME: To reduce excessive overtime and one-day shipment cost, please be advised that all daily shipments must be in the hands of the CAPPS Transportation Department (BCMT) at the CAPPS Warehouse building M6-698 complete with all necessary documentation (NASA RFS Form 7-248, Boeing RFS KSC Form 31-177, Shipping Inspection Check List, Property Office Sign-Off, and Packing Instructions) **by 2:30 p.m.** Shipments or requests received after this time will be processed and shipped the next regular working day. **EXCEPTIONS:** Approved emergency shipments validated by appropriate Senior Management. (TA-E1)

SHUTTLE BUS CAUTION: Passengers exiting and crossing in front of Shuttle Buses are in danger of being struck by oncoming vehicles passing the stopped Shuttle Buses. Passengers are cautioned to be alert for oncoming traffic, and vehicle operators should use extreme caution when passing stopped Shuttle Buses and yield to pedestrians. (TA-E1)
